

LIBRARY, HOMEWORK & READING CLUB

The library, homework and reading club are available for students of high school and primary school to attend. At the homework club students will receive assistance with their homework from the designated adults who are there to help. The homework and reading club happens in the evening in the learning resource room at the hub and runs for an hour on the days designated. When the homework and reading club are in session, the library is also available for the children to borrow books.

Internet is available at the hub

Internet is available at the hub for the students to use to support them with their homework.

Where possible the students are encouraged to bring their own device so they may be connected to the internet. There will be a number of tablets made available for the children to use to access the internet, whilst they are at the hub.
